As for the temperament of the space, he is also following the design of steed humanistic feelings. Choose rustic materials and combine them. For example, the screen and wall structure in the negotiation area are shaped by blocks, and in the block surface, with delicate details. Through this, to achieve the purpose of both form and spirit. 至于空间的气质，他也在遵循设计驭骥人文的情怀。选用质朴的材料，进行组合。比如洽谈区的屏风和墙面结构，以块塑形，并在块面之中，搭配精致细节。借由此，达到形神兼备的目的。

电梯延廊高垂“贝壳”挂饰，增加走廊的视觉延长性，拉伸空间氛围，使人身临其境而觉空间通畅，舒心悦快。

The space pays attention to the harmonic effect in cold and warm colors, so that the space is primary and secondary, and the focus is prominent. In the combination of soft and hard clothes, the harmony between colors is fully taken into account, and the atmosphere of fashion and generosity in the space is permeated everywhere with French romance.
